#### AMENDMENTS TO THE CLAIMS

Please amend the claims to read as follows, and cancel without prejudice or disclaimer to resubmission in a divisional or continuation application claims indicated as cancelled:

1. (Currently Amended) A method for observing an image stream, the method comprising:

accepting images acquired by a swallowable in-vivo device disposed within a body lumen;

displaying the images on a monitor in the form of a moving image;

accepting a pause signal to halt a movement of said images;

accepting a directional signal from a wheel after said movement of said images has halted; and

altering the direction or speed of the display of the moving image according to the directional signal.

2. (Currently Amended) The method of claim 1, wherein moving the wheel a set direction distance from a center point causes the moving image to be displayed at a variable speed, the speed being based on the distance from said center point.

3. (cancelled)

4. (previously presented) The method of claim 1, wherein movement of a set distance of the wheel causes a particular frame of the moving image to be displayed.

5. (Original) The method of claim 1, wherein movement of a set distance of the wheel represents a single movement of the moving image.

6. (previously presented) The method of claim 1, wherein the moving image is displayed in variable speed.

7. (cancelled)

8. (Original) The method of claim 1, wherein the wheel is a scrolling wheel.

9. (previously presented) The method as in claim 1, wherein the swallowable in-vivo device is a capsule.

10. (Original) The method as in claim 1 wherein the images are images from a gastrointestinal tract.

11-38. (cancelled)
